Dr. Arooba Talat (CaRMS ID: DQ-565-SC-238)

The candidate has waived the right to see this letter.

Dear program director,

I am writing this letter to give my highest possible recommendations for Dr. Talat who is applying to your residency program. I know Dr. Talat through her work with me at Children's Hospital in the department of Pediatric Medicine from June 18th, 2009 to July 17th, 2009.

During her internship period, she has shown immense drive and capacity to work. She exercised her skills of clinical appraisal with an affectionate approach. She has a thorough understanding of the subject and its application and is well versed at patient management in the wards and outpatient departments. She can confidently manage all types of pediatric cases including infectious diseases, hereditary disorders, developmental issues and common everyday diseases.

During this time, Dr. Talat has been punctual at work and attends organized teaching sessions regularly. She got along very well with her colleagues and the nursing staff and her manner with patients was empathetic and encouraging. During her stay with me, Dr. Talat has shown keen interest in community health programs including the Immunization program for children. She is one among the few that struck the right balance between academic and co curricular activities.

Dr. Talat is an excellent team member because of her dependability and zeal to see a task through to completion. She has excellent people skills and maintains the trust of her patients remarkably well. She is organized in her work and has shown leadership qualities on various occasions.

In the one month that I have known her, Dr. Talat struck me as having a natural aptitude for the medical profession. I am very certain that she will contribute positively to any residency program that recruits her. I recommend Dr. Talat in highest terms to join your team as I am sure she will not only be an asset to your department and institution, but will make an inspiring difference to the lives of the patients she would care for.

Please don't hesitate to contact me if you need any additional information. You can contact me via email.

Yours sincerely,
