# LETTER OF RECOMMENDATION

**To Whom It May Concern,**

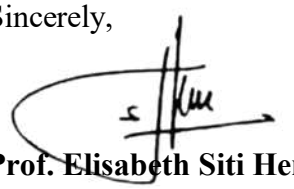

It is with great pleasure that I recommend **Andika Priamas Nugrahanto, MD** for a **bursary to attend the 18th Asian & Oceanian Congress of Child Neurology**. As his senior colleague in the Division of Pediatric Neurology, Department of Child Health, Faculty of Medicine, Public Health and Nursing, Universitas Gadjah Mada**,** I have had the opportunity to observe his growth as a clinician and academic over the past several years.

Dr. Andika is a pediatrician pursuing further training in pediatric neurology. He approaches children with complex neurological conditions with care and curiosity, and he has made a sustained effort to develop his clinical and research skills. His interests in pediatric epilepsy, neurogenetics, and neurodevelopmental disorders are particularly relevant to the needs of children and families served by our referral center.

His proposed congress presentation examines whether cerebrospinal fluid heparin-binding protein measured at admission can help assess mortality risk in children with bacterial meningoencephalitis. The study addresses a serious clinical problem and shows his willingness to evaluate a promising biomarker against information already available in routine care. Presenting these findings at AOCCN 2027 would give him valuable scientific feedback and an opportunity to learn from colleagues working in different settings across the region.

I believe Dr. Andika will make thoughtful use of this opportunity and share what he learns with our pediatric neurology community. **I recommend him for the AOCCN 2027 bursary and support his participation in the congress.**

Sincerely,

**Prof. Elisabeth Siti Herini, MD, PhD**
Department of Child Health, Division of Pediatric Neurology
Faculty of Medicine, Public Health and Nursing
Universitas Gadjah Mada
A Life Member, Asian and Oceanian Child Neurology Association (AOCNA)

# LETTER OF RECOMMENDATION

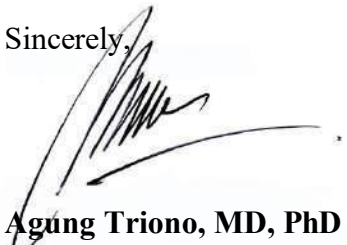

**To Whom It May Concern,**

I am pleased to recommend **Andika Priamas Nugrahanto, MD for a bursary to attend the 18th Asian & Oceanian Congress of Child Neurology (AOCCN 2027).** I have worked with him in the Division of Pediatric Neurology, Department of Child Health, Faculty of Medicine, Public Health and Nursing, Universitas Gadjah Mada, and Dr. Sardjito General Hospital in Yogyakarta, Indonesia.

Dr. Andika is a pediatrician pursuing further training in pediatric neurology. He has shown a strong commitment to the care of children with neurological disorders and to research that addresses questions arising from clinical practice. His interests include pediatric epilepsy, neurogenetics, and neurodevelopmental disorders.

Dr. Andika would benefit greatly from presenting his work and discussing it with child neurology colleagues from across the region. I believe he would participate actively in the congress and bring the knowledge and professional connections gained there back to our clinical and academic community in Indonesia. **I strongly support his application for an AOCCN 2027 bursary and recommend him for your consideration.**

Sincerely,

**Agung Triono, MD, PhD**
Head of Neurology Division
Department of Child Health, Division of Pediatric Neurology
Faculty of Medicine, Public Health and Nursing
Universitas Gadjah Mada
Active Member, Asian and Oceanian Child Neurology Association (AOCNA)
